Features of Feed Pellet Mill:

- 1.This kind of animal feed pellet machine is mainly used to make feed pellets for rabbit, pigeon, layer chicken, broiler, duck, goose, fish, pig and so on.
- 2.Our pellet machines just need little power consumption and small occupation.
- 3.The feed pellet mill is packed in wooden case suitable for long distance transportation.

5. Flat die is made with international advanced equipment for long lifespan.
6. Drive with heavy duty gearbox, which can produce continuously in most adverse condition.
7. The key parts are made of alloy steel to be very strong and malleable.
8. The important key elements are of high performance with long life and low maintenance cost .

What is the terms of warranty and spare parts?

When we are talking about spare parts for a pellet mill, by and large, we are talking about die, roller and bearing. Practically, that how often you will need to renew spare parts is depending on what raw material you are making pellets from. Apparently, compared with making straw pellets, pellet mill that are making wood pellets requires a higher frequency for changing spare parts. We supply clients with high quality pellet mill dies, rollers, bearings and other parts. Clients are available to order at anytime. If you need spare parts, please contact me or test message.
